

# Interdisciplinary symposium on sepsis

Thursday 8<sup>th</sup> September 2022

**Amphitheater Laroque  
Ministry of Health, Paris**

**Objectives:** gathering actors involved in research on sepsis; promoting interdisciplinary discussions on the theme of sepsis; highlighting unresolved issues around sepsis.

**Public:** academic actors in research on sepsis, professional organizations, and representatives of public authorities.

## 9h00-9h30. Welcome of participants

### 9h30-10h. Introduction

Sepsis, a public health challenge. Djillali ANNANE (Université Versailles Saint-Quentin, Paris)

### 10h-11h. Mechanisms of sepsis – Improving the understanding of sepsis

10h-10h15. From molecular mechanisms to patient bedside. Laurent BOYER (C3M, Inserm U1065, Université Côte d'Azur, Nice)

10h15-10h30. One Health: contribution of animals to the fight against sepsis. Vanessa LOUZIER, (VetAgro Sup, Ecole nationale vétérinaire, Lyon)

10h30-11h. Systemic inflammatory response: lessons from a model organism. Jean-Luc IMLER (Institut de Biologie Moléculaire et Cellulaire, Strasbourg)

11h-11h30. Pause

### 11h30-12h30. Diagnostic implications and monitoring of sepsis

11h30-11h45. Early diagnosis of sepsis: from the general practitioner's office to hospital admission. Pierre HAUSFATER (Sorbonne Université, Paris)

11h45-12h. Biomarkers-guided personalized immunotherapy. Guillaume MONNERET (Université Claude Bernard Lyon 1, Lyon)

12h-12h30. Enriched endotypes for sepsis. Julian KNIGHT (Wellcome Trust Center for Human Genetics, University Oxford)

### 12h30-13h30. Déjeuner sur place

### **13h30-15h00. Clinical and therapeutic implications**

13h30-14h. Challenges in sepsis. Mervyn SINGER (University College London)

14h-14h30. Methodological advances in clinical research on sepsis: place and future of adaptive trials. Sylvie CHEVRET (Unité de Biostatistique et de Recherche Clinique, Université Paris Cité)

14h30-15h. Oncology research: example of precision medicine. Christophe LE TOURNEAU (Department of Drug Development & Innovation (D3i), Institut Curie – Paris & Saint-Cloud – Paris-Saclay University)

15h00-15h15. Pause

### **15h15-16h15. Social and societal implications – Living after sepsis**

15h15-15h45. How to survive sepsis? Patient testimonial by Krista BRACKE, honorary doctor of Ghent University & author of *Human to Human* (Belgium)

15h45-16h15. Long-term outcome after sepsis. Joanne McPEAKE (University of Glasgow, Scotland)

**16h15-16h30. Summary of symposium presentations.** Djillali ANNANE (Université Versailles Saint-Quentin, Paris)

### **16h30-17h. Round table on the future and fundings of research on sepsis in France**

Invitation of representatives of the Ministry of Health and Prevention, Ministry of Education and Research, and France Sepsis Association

### **17h00. Closing of the symposium**

### **Free registration for the sepsis symposium on Eventbrite:**

<https://www.eventbrite.fr/e/billets-symposium-inter-disciplinaire-sur-le-sepsis-380603735017>

### **With the support of:**
